## § 1104.2

practitioner who is not duly qualified under §1103.2 or §1103.3 of these rules. No person who is not duly admitted to practice should be held out in a way which will give the impression that he is so admitted. No false or assumed or trade name should be used to disguise the practitioner or his partnership or professional corporation.

#### §1104.1 Address and identification.

(a) Except as provided in §1115.7, pleadings should be addressed to the "Secretary, Surface Transportation Board, Washington, DC 20423," and should designate the docket number and title of the proceeding, if known.

(b) The address of the person filing the pleading should be included on the first page of the pleading.

(c) All envelopes in which a pleading is being submitted should be marked in the lower left hand corner with the docket number, if known, (not the full title) and the pleading type.

(d) All multi-volume pleadings must be sequentially numbered on the cover of each volume to indicate the volume number of the pleading and the total number of volumes filed (e.g., the first volume in a 4-volume set should be la-

beled "volume 1 of 4," the second volume "volume 2 of 4" and so forth).

#### § 1104.2 Document specifications.

(a) Documents filed with the Board must be on white paper not larger than 8½ by 11 inches, including any tables, charts, or other documents that may be included. Ink must be dark enough to provide substantial contrast for scanning and photographic reproduction. Text must be double-spaced (except for footnotes and long quotations, which may be single-spaced), using type not smaller than 12 point. Printing may appear only on one side of the paper for original documents, but copies of filings may be printed on both sides of the paper.

(b) In order to facilitate automated processing in document sheet feeders, original documents of more than one page may not be bound in any permanent form (no metal, plastic, or adhesive staples or binders) but must be held together with removable metal clips or similar retainers. Original documents may not include divider tabs, but copies must if workpapers or expert witness testimony are submitted. All pages of original documents, and each side of pages that are printed on both sides, must be paginated continuously, including cover letters and attachments. Where, as a result of assembly processes, such pagination is impractical, documents may be numbered within the logical sequences of volumes or sections that make up the filing and need not be renumbered to maintain a single numbering sequence throughout the entire filing.

(c) Some filings or portions of filings will not conform to the standard paper specifications set forth in paragraph (a) of this section and may not be scannable. For example, electronic spreadsheets are not susceptible to scanning, but oversized documents, such as oversized maps and blueprints, may or may not be scannable. Filings that are not scannable will be referenced on-line and made available to the public at the Board's offices. If parties file oversized paper documents, they are encouraged

### § 1104.3

### 49 CFR Ch. X (10–1–02 Edition)

to file, in addition to the oversized documents, representations of them that fit on the standard paper, either through reductions in size that do not undermine legibility, or through division of the oversized whole into multiple sequential pages. The standard paper representations must be identified and placed immediately behind the oversized documents they represent.

(d) Color printing may not be used for textual submissions. Use of color in filings is limited to images such as graphs, maps and photographs. To facilitate automated processing of color pages, color pages may not be inserted among pages containing text, but may be filed only as appendices or attachments to filings. Also, the original of any filing that includes color images must bear an obvious notation, on the cover sheet, that the filing contains color.

#### § 1104.3 Copies.

(a) An executed original, plus 10 copies, of every pleading, document, or paper permitted or required to be filed under this subchapter, including correspondence, must be furnished for the use of the Board, unless otherwise specifically directed by another Board regulation or notice in an individual proceeding. Copies may be reproduced by any duplicating process, provided all copies are clear and legible. Appropriate notes or other indications shall be used so that matters shown in color on the original, but in black and white on the copies, will be accurately identified on all copies.

(b) Electronic submissions must be furnished as follows:

(1) Textual submissions of 20 or more pages must be accompanied by three electronic copies submitted on compact discs or 3.5-inch IBM-compatible formatted floppy diskettes in Word-Perfect 9.0 format or earlier releases.

(2) Three sets of evidence or workpapers consisting of mathematical computations must be submitted as functioning electronic spreadsheets in Lotus 1-2-3 Release 9 or Microsoft Excel 97, or compatible versions, on compact discs or 3.5-inch IBM-compatible formatted floppy diskettes. In order to fully evaluate evidence, all

spreadsheets must be fully accessible and manipulable. Electronic databases placed in evidence or offered as support for spreadsheet calculations must be compatible with the Microsoft Open Database Connectivity (ODBC) standard. ODBC is a Windows technology that allows a database software package to import data from a database created using a different software package. We currently use Microsoft Access 97 and databases submitted should be in either this format or another ODBC-compatible format. All databases must be supported with adequate documentation on data attributes, SQL queries, programmed reports, and so forth.

(3) One copy of each diskette or compact disc submitted to the Board should, if possible, be provided to any other party requesting a copy.

(4) Each diskette and compact disc must be clearly labeled with the Docket Number of the proceeding in which it is filed; the name(s) of the party(ies) on whose behalf the filing is made, and “CONFIDENTIAL” or “REDACTED” as appropriate. If more than one diskette or disc is submitted for one filing, the label of each must be sequentially numbered to indicate the diskette or disc number and the total number of diskettes or discs filed (e.g., the first disc of a 4-disc set should be labeled “Disc 1 of 4,” the second disc “Disc 2 of 4,” and so forth).

#### § 1104.4 Attestation and verification.

(a) *Signature of attorney or practitioner.* If a party is represented by a practitioner or an attorney, the original of each paper filed should be signed in ink by the practitioner or attorney, whose address should be stated. The signature of a practitioner or attorney constitutes a certification that the representative:

(1) Has read the pleading, document or paper;

(2) Is authorized to file it;

(3) Believes that there is good ground for the document;

(4) Has not interposed the document for delay;
